Enviro-Save
P.O. Box 80129
Burnaby, B.C.
V5H 3X5

Dear Warren,

In 1991 I purchased a 1988 Toyota 4Runner and on the recommendation of my father, who had used Enviro-Save in a couple of vehicles, I purchased a complete treatment kit for it.

At the time of treatment the 4Runner had 80,000 kilometers on it. I kept it until early 2000 at which point I sold it for \$1300.00 more than I paid for it, almost 9 years earlier, with just shy of 450,000 kilometers on it, perfect compression and no rebuild! Aside from regular maintenance I only had to do the head gasket twice, which was a common problem with the early V6 engines.

One of the main reasons I got the good dollar for it was that the engine had perfect compression when the buyer had it all checked out, the report he got said that mechanically the truck was in tip top condition.

I highly recommend your product and still use it today in my vehicles.

Many Thanks,

Jay Anderson
