Dear Steve:

I purchased Enviro-Save for the Clay Township Fire Company. I wanted to let you know how impressed I am with your product. We of course, start the fire trucks and take off immediately. Since using Enviro-Save, the trucks seem to start quicker without a dry start on the motor and run smoother. One of the fire trucks shifted gears very hard. After using Enviro-Save, it now shifts much easier and smoother. The trucks even have more power. Thank you for a great product. I have recommended it to everyone!

Thanks again,

Karen S. Freeman
Clay Township Trustee
