Enviro Save

22 Oct 09

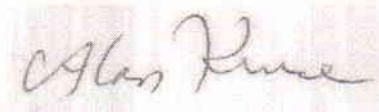

PO Box 80129

Burnaby, BC

VSH 3X5

I used the Enviro Save Firearms product on my used Benelli Super Black Eagle II 12 gauge shotgun prior to my departure for a week of goose hunting in Saskatchewan in September 2009. I was extremely pleased with the results. The action functioned more smoothly than before, I had no misfires even after a week of heavy shooting in wet conditions, and it made cleaning the gun after I returned home a breeze. I am sold on the product and am now applying it to all my other firearms!

Respectfully,

Alan Kruse
